## BESPOKE HOME LIVING

By The Luxury Channel

As the winter months loom in the northern hemisphere, our thoughts turn to hibernating in the comfort and luxury of our homes to avoid stepping out in the cold. With this in mind, The Luxury Channel brings you our pick of the perfect pieces of furniture with which to decorate your home. From chic chandeliers to stunning sofas, we've got it covered....

### 22 22 Edition Design

The Soleil Chandelier captivates your attention with its unique design. Born from a detailed exploration of form, volume and matter, this original light fixture acts as a sun that radiates light in arabesque patterns. Made out of steel wire with epoxy paint, the rays of this remarkable design piece are covered with a non-flammable Lycra material which is available in an array of colours such as black, white, fuchsia and green.
